2.REGISTER DATABASE:

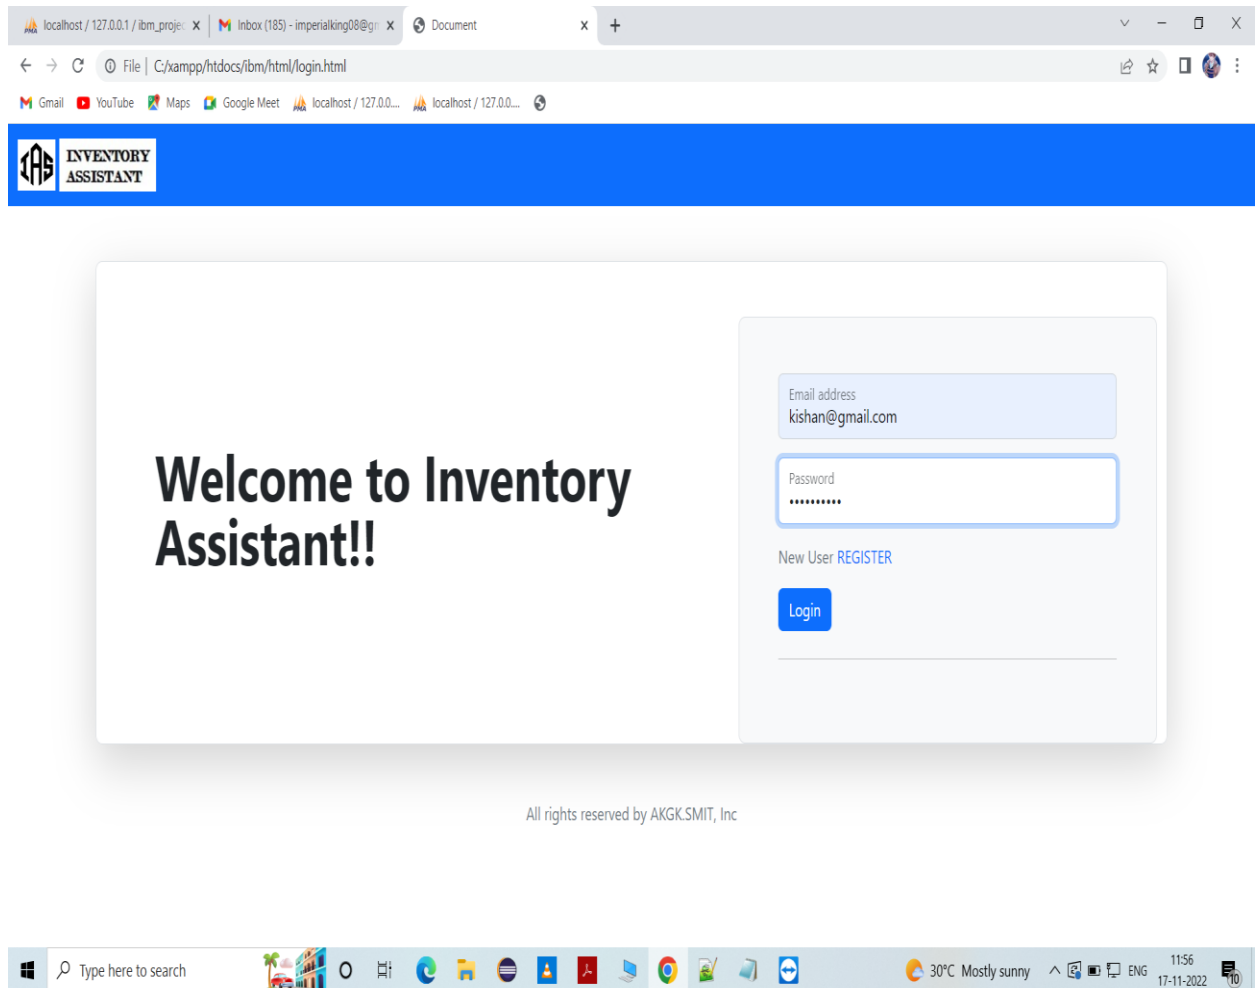

The screenshot displays the phpMyAdmin web interface. The browser address bar shows the URL: `localhost/phpmyadmin/index.php?route=/sql&pos=0&db=ibm_project&table=user_details`. The interface shows the 'ibm_project' database selected, with the 'user_details' table chosen. A message states: 'Current selection does not contain a unique column. Grid edit, checkbox, Edit, Copy and Delete features are not available.' Below this, a green bar indicates 'Showing rows 0 - 3 (4 total, Query took 0.0006 seconds)'. The SQL query `SELECT * FROM `user_details`` is shown. The table data is as follows:

username	password	contactno	email
Kishan	Kishan@123	1188776655	kishan@gmail.com
Aakash	Aakash	1122334455	aakash@gmail.com
ramesh	ramesh	1212121212	ramesh@gmail.com
Tamil	Tamil@123	1234567890	tamil@gmail.com

At the bottom, there are options for 'Query results operations' (Print, Copy to clipboard, Export, Display chart, Create view) and a 'Bookmark this SQL query' section.

3.LOGIN PAGE:

The screenshot shows a web browser window with the URL `C:/xampp/htdocs/ibm/html/login.html`. The page has a blue header with the "INVENTORY ASSISTANT" logo. The main content area is white and features a large "Welcome to Inventory Assistant!!" message on the left. On the right, there is a login form with two input fields: "Email address" (containing "kishan@gmail.com") and "Password" (containing "*****"). Below the password field, there is a link for "New User REGISTER" and a blue "Login" button. At the bottom of the page, a footer states "All rights reserved by AKGK.SMIT, Inc". The Windows taskbar at the bottom shows the system clock as 11:56 on 17-11-2022, with a weather widget indicating 30°C and "Mostly sunny".

5.DASHBOARD ->>PROFILE:

The screenshot shows a web browser window with the title 'IBM-Project-40646-1660632542 / x Profile'. The address bar shows the file path 'C:/xampp/htdocs/ibm/html/Profile.html'. The browser window displays the 'Inventory Assistant' application. On the left is a sidebar with a logo and navigation links: 'Dashboard', 'Profile' (highlighted in blue), 'View Inventory', 'Sales History', 'Update Inventory', and 'About'. A 'Refresh' link is at the bottom of the sidebar. The main content area is titled 'Profile' and includes a search bar, a breadcrumb 'Home > Profile', and another 'Refresh' link. The profile card shows a placeholder for a profile picture, the name 'ganesh', the surname 'SMIT', and a phone number '21261920 5004' displayed in two lines. Below this, the email address 'GANU@gmail.com' and the phone number '768785644' are listed.

6.DASHBOARD ->> VIEW_INVENTORY:

The screenshot displays a web browser window with the 'Inventory Assistant' application. The browser's address bar shows the file path 'C:/xampp/htdocs/ibm/html/Profile.html'. The application's left sidebar contains a menu with the following items: 'Dashboard', 'Profile' (highlighted in blue), 'View Inventory', 'Sales History', 'Update Inventory', and 'About'. A 'Refresh' link is located at the bottom of the sidebar. The main content area is titled 'Profile' and includes a search bar at the top. Below the title, there is a user profile card for 'ganesh SMIT' with a placeholder for a profile picture. The card displays two sets of identification numbers: '21261920 5004' and '5004'. Below the card, the contact information is listed: 'Email address: GANU@gmail.com' and 'Phone: 768785644'. A 'Refresh' link is also present in the top right corner of the main content area. The Windows taskbar at the bottom shows the system clock at 11:43 and the weather as '27°C Mostly sunny'.

8.DASHBOARD ->> UPDATE_INVENTORY:

The screenshot displays a web browser window with the URL `localhost/ibm/html/testing.php`. The browser's address bar shows the page title as "Update Inventory". The application interface includes a sidebar on the left with the "INVENTORY ASSISTANT" logo and navigation links: Dashboard, Profile, View Inventory, Sales History, Update Inventory (highlighted in blue), and About. A "Refresh" link is located below the sidebar. The main content area features a search bar and a breadcrumb trail "Update inventory". The "Update" form contains the following fields: PRODUCT_ID (123457), PRODUCT_NAME (sneakers), QUANTITY (30), and DATE_OF_ORDER (18-11-2022). A "Refresh" link is positioned in the top right corner of the form area. At the bottom of the form are "UPDATE" and "CANCEL" buttons. The footer of the application states "All Rights Reserved by AKGK.SMIT INC!". The Windows taskbar at the bottom shows the search bar, task view button, and several application icons, along with a weather widget indicating 30°C and the date 17-11-2022.

9.UPDATE_INVENTORY DATABASE:

The screenshot displays the phpMyAdmin web interface. The browser address bar shows the URL: `localhost/phpmyadmin/index.php?route=/sql&pos=0&db=ibm_project&table=product_details`. The interface shows the 'product_details' table selected within the 'ibm_project' database. The table structure is as follows:

product_name	quantity	Product_id	Date_of_Order
Aakash	10	123457	2022-11-14
hall	10	123	2022-11-14
kitchen	1000	124	2022-11-14
Bathroom	500	0010	2022-11-14
bedroom	10000	1000	2022-11-14
Kishan_room	999	1001	2022-11-15
pencil	200	123455	2022-11-16

testing	997	997	2022-11-14
testing	997	997	2022-11-14
testing	996	996	2022-11-13
testing	996	996	2022-11-13
Testing	995	995	2022-11-12
kisan jam	30	9899	2022-11-16
kitkat	10	123457	2022-11-17
dairy milk silk fruit and nuts	30	12345121	2022-11-17
sneakers	30	12345671	2022-11-18

Below the table, there are controls for 'Show all', 'Number of rows' (set to 25), and a 'Filter rows' search box. At the bottom, the 'Query results operations' menu is visible, including options for Print, Copy to clipboard, Export, Display chart, and Create view.

10.DASHBOARD ->> ABOUT:

INVENTORY MANAGEMENT SYSTEM FOR RETAILERS

Retail inventory management is the process of ensuring you carry merchandise that shoppers want, with neither too little nor too much on hand. By managing inventory, retailers meet customer demand without running out of stock or carrying excess supply.

In practice, effective retail inventory management results in lower costs and a better understanding of sales patterns. Retail inventory management tools and methods give retailers more information on which to run their businesses. Applications have been developed to help retailers track and manage stocks related to their own products. The System will ask retailers to create their accounts by providing essential details. Retailers can access their accounts by logging into the application. Once retailers successfully log in to the application they can update their inventory details, also users will be able to add new stock by submitting essential details related to the stock. They can view details of the current inventory.
